

Schedule: September 2014 to November 2016 **Location:** Town of Menasha

Description: Work on this contract consists of common excavation, embankment placement, base aggregate, HMA pavement, intelligent transportation systems, lighting, signing, a 22-span girder bridge on US 10/WIS 441 over Little Lake Butte des Morts, a bridge extension and overlay on US 10/WIS 441 over Cold Spring Road, a box culvert, sign structures, concrete pavement, traffic control, erosion control and all incidentals required to complete this work.

October 24 to October 28: The contract completion date is 10/12/16, so punch list work will continue following the completion date. Work on the armored cap in Little Lake Butte des Morts should begin. Work will continue moving the temporary causeway.

October 31 to November 4: The contract completion date is Oct. 26, so punch list work will continue following the completion date. Work on the armored cap in Little Lake Butte des Morts should be completed.

Traffic Impacts: Throughout the duration of the project, there will be various shoulder closures along I- 41, US 10/WIS 441, and all applicable ramps to allow the contractor to work adjacent to these areas. There may also be outside I-41 lane closures as needed, either at night or during non-peak hours throughout the project. There will be various lane closures to accomplish this work. There will still continue to be operations in this area, so please continue to use caution and exercise patience around these slow moving vehicles.
