

Public Meeting May 18

# Become a roundabout expert

Attend the US 41 Project Roundabout Information Meeting

## CONNECTING WISCONSIN

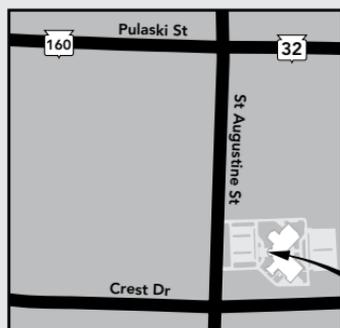

■ Entering traffic yields to all vehicles in all lanes already in the roundabout.

■ Choose the correct lane before entering a roundabout.

### WHEN *and* WHERE

Wednesday May 18, 2011

5 to 7 p.m.

**Pulaski High School  
Auditorium and Commons**

1040 S. St. Augustine St.  
Pulaski, WI 54162

*Please use front entrance*

### A great opportunity to learn

Up to 24 roundabouts are being built along US 41 in Brown County as part of the US 41 Project. Construction will also soon begin on the new roundabout at the intersection of WIS 32 and County B in Pulaski. This meeting is an excellent opportunity for drivers to learn all about roundabouts directly from the experts at the Wisconsin Department of Transportation.

Staff will cover topics like how to navigate a roundabout and explain why WisDOT is building roundabouts in Brown County and across the state. We will also have videos and other exhibits that clearly show the way roundabouts work, and we will answer any questions you might have.
