

Roundabout media resources

Since roundabouts are a big part of the US 41 Project, we've created some materials on the topic which you'll find here.

Roundabouts and Public Opinion

Nervous about roundabouts? In a recent multi-location study, 22-44 percent of drivers who were in favor of roundabouts before their construction compared with 48-67 percent soon afterward, and 57-87 percent after roundabouts were in place for one year or more. Research shows it doesn't take long before people begin to appreciate the [safety benefits of roundabouts](#)

Have specific questions? Visit our [FAQs page](#) for common questions about roundabouts.

Or, visit the [roundabout information campaign](#) section for information about the benefits of roundabouts, how to navigate, and which areas of the project will be impacted.
